

StoneX and US Gold Opportunity Fund, LP make an impact in economically challenged communities known as Opportunity Zones

BRISTOL, PA, May 24, 2021 -- US Gold Opportunity Fund, LP (“US Gold”) announces a unique investment opportunity designed to drive economic activities in economically challenged communities known as Opportunity Zones.

US Gold jump starts its Opportunity Zone-based business focused on buying, selling, and storing gold on behalf of its owners with a \$30 million purchase of gold bars that were delivered by StoneX Financial Ltd (a wholly owned subsidiary of StoneX Group Inc.) to US Gold Opportunity Fund, LP at a CME certified gold delivery vault, located in an Opportunity Zone.

“Working with the team at US Gold Opportunity Fund, LP in an attempt to make a positive impact in Opportunity Zone communities, is an important part of our broader social responsibility initiatives at StoneX,” stated Greg Frith, Precious Metals Sales & Trading (North America & EMEA), StoneX Financial Ltd.

US Gold Opportunity Fund, LP partnered with StoneX Financial Ltd to move physical gold bullion from Europe to a vault located in a US Opportunity Zone. With the shipment of these gold bars from Europe into a US Opportunity Zone, the logistics and general services associated with the secure storage of this gold moved into an Opportunity Zone also.

“We were eager to work with a top-tier service provider, like StoneX Financial Ltd, to provide our owners and customers with an extremely high level of confidence that the gold we are purchasing is of the highest purity and will have been refined at a top tier refinery operating under the London Bullion Market Association’s Responsible Gold Sourcing Guidelines,” says Bob Enck, CEO of US Gold.

“It was eye-opening to our team to learn that massive gold ETFs primarily store gold in Europe. US investors in these large ETFs may be unknowingly exporting jobs and economic impact overseas. With that in mind, we were delighted to work with StoneX Financial Ltd to move gold bars from Europe to a US vault located in an Opportunity Zone,” stated Scott Victor, COO of US Gold. “Moving \$30 million of gold from Europe to an Opportunity Zone was meaningful for our team as it makes a positive impact on our community.”
